CLEANING AND MAINTAINCE

In order to preserve this outdoor furniture over time we recommend:

For aluminium:
Use a soft cloth with water** and neutral soap. Cleaning agents must not contain solvents or bleaching agents. Metal brushes or scrapers of any kind are not suitable for cleaning.

For fabrics:
Fabrics can be washed simply with water in most cases, however, remember that the most stubborn dirt can be removed with common household cleaning products or alcohol.

Maintenance guidelines:
To ensure the durability of the product do not jump on aluminium net. Do not sit on the armrests or on the backrests. Product is lightweight so do not drag it over the floor or other surfaces as it could be damaged.

To ensure long-term use, in case of adverse weather conditions, we recommend storing the textile parts indoors. In the case of minor, short-term rainfall, we recommend purchasing custom-made covers from Conture.hr.

**water should not be over 40 °C
